Thank You

Hiring a photographer for your wedding is a HUGE deal. I take it very seriously.

You have been planning and getting excited about the details for many months—sometimes years - and through our photos, you *will* relive the day you married your best friend.

You are putting trust in a photographer who knows all the beautiful places and when the light is right.

You are depending on us to create a detailed timeline including family photos so nothing gets missed.

I bet you never thought that you are hiring an advisor, a friend, and someone who will be assertive and also kind and patient.

Don't take my word for it. Look at our reviews from real couples who still consider us friends.

Thank you for your consideration,
